

## Harm & Exposure Reduction Kit

OPIOID OVERDOSE CAN HAPPEN ANYWHERE | BE READY • TAKE ACTION • SAVE LIVES

### WPC'S RESPONSE TO THE GLOBAL OPIOID EPIDEMIC

The increase in drug-exposure deaths related to synthetic opioids – such as illicitly made Fentanyl – is a public health crisis that requires immediate action and novel strategies. This crisis is not only affecting public health, it is exposing our First Responders to potential harm.

The National Institute for Occupational Safety and Health (NIOSH) has suggested exposure reduction guidance to address this issue.

WPC introduces the Harm & Exposure Reduction Kit to address this unmet need.

### KIT CONTENTS

Every Harm & Exposure Reduction Kit comes with four boxes of EcomBlue (100 per box) Fentanyl- and Xylazine-tested gloves,

sized medium and large with customizable size options. One box each of Innova Fentanyl and Xylazine Test Strips (100 per box) as well as detailed instructions for use.

### INNOVA TEST STRIPS

Innova Fentanyl and Xylazine Test Strips represent an effective, easy-to-use way to detect Fentanyl and Xylazine contents

- 100 test strips per box
- QR code scan for positive results
- Anonymous positive test reporting system to provide tracking information within local communities

OPIOID OVERDOSE CAN HAPPEN ANYWHERE | BE READY • TAKE ACTION • SAVE LIVES

### ECOMBLUE FENTANYL PROTECTION NITRILE GLOVES (5.4\* MIL)

DESIGN & FEATURES				
Type	Powder-free			
Material	NBR (Nitrile Butadiene Polymer/Rubber)			
Design	Beaded Long Cuff, Finger Textured Surface, Tested for Use with Chemotherapy and Fentanyl Drugs			
Color	Blue			
Surface Treatment	Online Chlorination Process			
Chemical Resistance Testing	Fentanyl citrate; 100 mcg/2mL >240 minutes			
PHYSICAL DIMENSION (INSPECTION LEVEL S2, AQL 4.0)				
Palm Width (mm)	S: 90 ±5	M: 100 ±5	L: 110 ±5	XL: 120 ±5
Glove Length (mm)	Standard Cuff MIN 245 ±5			
Single-Wall Thickness (mm)	Finger: MIN 0.15 ±0.02		Palm: MIN 0.12 ±0.02	
Estimate Target Weight	Medum: 5g ±0.2			
PHYSICAL PROPERTIES (INSPECTION LEVEL S2, AQL 4.0)				
Reference	ASTM D6319			
Tensile Strength (mPa)	Unaged: MIN 14		Aged: MIN 14	
Elongation (%)	Unaged: >500		Aged: >400	
POWDER CONTENT				
Residual Powder Content	≤2mg/glove			
DEFECT DESCRIPTION		INSPECTION LEVEL		AQL
1000ml Watertight Test (to ASTM D5151)		General Inspection, Class I, Single Sampling Plans for Normal		< 1.5
MINIMUM CHEMOTHERAPY DRUGS TESTED (REFERENCE SDS FOR LIST OF ALL DRUGS TESTED)				
Carmustine; Cisplatin; Cyclophosphamide; Dacarbazine; Doxorubicin Hydrochloride; Etoposide; 5-Fluorouracil; Paclitaxel; Thiotepa				
EXTENDED DRUG – PHARMACEUTICAL TESTING				
Fentanyl Citrate (injection); Gastric Acid; Xylazine				

\*Also available in the color black and a secondary thickness of 6.2 mil

- Heavy-duty industrial-grade blue nitrile gloves – multi-purpose 5.4mil gloves that are powder- and latex-free. 100 count per box. Meets and exceeds industry standards for safety, quality, and strength.
- Incredible fit with touch-screen accessibility – designed to maximize both protection and dexterity making it easier to complete tasks.
- Fentanyl- and chemical-resistant – meets OSHA requirements when dealing with Fentanyl. Meets the ASTM D6978 chemo-rating testing standard. Provides at least 240 minutes of resistance against the top ten chemo-rated drugs. Ideal for first responders, police officers, and more.
- Durable and comfortable design – made from an ultra-durable material, these gloves have been engineered to stretch without tearing, they have a secure grip, and have beaded cuffs which makes it easier to put on and remove.
